

News Release – For Immediate Release

Clearwater, FL manufacturer debuts what will be the only electric boat at Newport Boat Show.

Cruise all day for less than \$2!

Newport, RI, May 15-17, 2009

The **Endeavour Electric**, a 24 foot design with an inboard electric drive has not only stylish lines and a unique remote control canopy that converts to a cockpit cover, it's equipped with the convenience of a private head (restroom), integrated swim platform with a recessed ladder, freshwater sink and shower, plenty of room for up to 12 passengers and can handle the wind and waves with ease.

Endeavour Green will be exhibiting the boat they manufactured for **Hyatt Regency Newport**. After the boat show, the *Endeavour Electric* will begin its new season as the hotel's eco-friendly and complimentary water shuttle between Goat Island and Newport mainland.

About Endeavour Green www.endeavourgreen.com

Endeavour Green is the newest addition to the Endeavour family of quality motor and sailing yachts. Endeavour, long known for their legacy of innovation and customer service is proud to introduce its new line of 24' electric and hybrid yachts for today's eco-minded market.

Economical, low maintenance, safety and eco-friendly are what today's boaters desire, so we also mixed-in...comfort, convenience, and peace and quiet.
